- Extremely High Capacity 11000mAh; 5 6 full charges or add 35 hours of talk time to your iPhone 5 / 4S / 4G / 3GS, 4 5 full charges for Samsung Galaxy S3, a full charge for iPad / iPad 2 / Samsung Galaxy Tablets, or 500%+ to most mobile phones' battery life.
- Dual Port Charging with one output at 1A to power almost all mobile smartphones (iPhones, iPods, Samsung, HTC, Motorola), and the other output at 2.1A to power most tablet devices (iPad, Galaxy tab, etc)
- Portable & stylish design compare to its extreme capacity; Easily fits into your bag to provide long lasting instant power; PERFECT for long plane flights, road trips, or whenever you need to charge your mobile devices wherever you are.
- Reliable Lithium Polymer battery ensures 500+ recharge cycles over the life of the battery. One year manufacturer warranty to ensure the product is free from any craftsman defects or DOA problems.
- No AC charger and iPhone iPad cable will be included, but Enerpak Vault is compatible with all original Apple cables and AC chargers.

## Product Description

### Overview

Constructed to be the apex of battery power, the Vault boasts a massive 11,000mAh capacity. This huge capacity is capable of powering tablets, phones, and almost any other portable device, making it ideal for extended trips and high demand users.

### Features

**Immense Battery Life** Equipped with uNu's largest battery yet, the Enepak Vault packs a whopping 11,000mAh. The power potential carried by a fully charged vault can completely power any tablet (including the iPad) and re charge any smartphone up to 6X!

**Technologically Advanced** Combining astounding power with industry leading technology, the Enepak Vault boasts a plethora of benefits. Designed with two USB ports for charging multiple devices, an LED battery capacity status indicator, and state of the art battery circuitry to ensure optimal efficiency, the Vault is the only battery for providing massive amounts of high powered, reliable energy.

**Dual Port Charging with 2.1A Output** Made to increase productivity, the Enepak Vault comes equipped with two different USB ports which can power devices simultaneously. The first, capable of charging at 2.1A is perfect for charging larger devices, including tablets, quickly and reliably. The second USB port is made for charging almost any phone or small electronic device to ensure on the go readiness.

**The Power of "uNuversal"** Using a 1A USB port to charge almost any USB device, the Enepak Tube effectively charges most electronics at significantly superior speeds compared to traditional USB batteries. Therefore, no matter what the device, an alternative power source is always within reach.

## Customer Questions & Answers

**Q: How long does it hold a charge? In other words, what percentage of the original charge will it retain after 6 months and 1 year?**

**A:** i reviewed the wrong thing here. this item i still have and have no problem with it. I was reviewing the extra iphone4 battery pack which is garbage.

**Q: Says it doesn't come with an "AC charger." Does it recharge from the original Apple charger, or do I need to purchase something else?**

**A:** I plugged mine into a USB ac charger just fine. Down' t think it was apple though.

★★★★★ **Been using for four days now and I am very impressed.** January 10, 2013

By Jeff Thomas

**Amazon Verified Purchase**

Extremely fast charges, even when my iPad and iPhone are connected at the same time. Faster than a wall outlet for the iPad. I bought it for my trip to Europe next week, and I think it's going to be perfect for the long flight over, and when we aren't able to charge-up during the day. It's not terribly heavy, either lighter than an iPad.

★★★★★ **Perfect for all my electronics** January 1, 2013

By The Cruz

**Amazon Verified Purchase**

Works as described and on all my portable electronics. Little heavier than expected. Hold charge for a log time which is a plus.

★★★★★ **An awesome device** March 6, 2013

By Raymundo Olivo

**Amazon Verified Purchase**

I'm always on the go and travel regularly for both business and pleasure. I have numerous devices; iPhone, iPad, Motorola and Plantronics wireless headphones. love all these devices but power consumption is always an issue. I initially bought a smaller external battery for my iPhone but it fell well short of my power needs and would not charge my iPad or any of my other devices. I did some diligence and found uNu I read several reviews regarding both their products and customer service, found both to be stellar and decided to buy their latest and greatest enerpak vault. I initially bought -1- unit for myself and found the quality of the product and the power capacity so superior to anything on the market I decided to buy -4- additional units for my family and friends. Everyone I know has multiple devices and I am confident they will love this thoughtful gift as much as I do!

★★★★☆ **Great!** June 13, 2013

By Jasmine

I really like this charger. I am an Athletic Trainer and my phone is my outlet to all things. I needed one of these to keep on the sidelines. Yesterday was my first day to charge it after it

★★★★★ **Great accessory for smart phones and i-Pad type items.** August 17, 2013

By [William](#)

**Amazon Verified Purchase**

This is a high quality item that is almost a necessity for me. I Use my i-Phone much of every day requiring recharging at least 2-3 times almost every day. This battery pack recharges it quickly and is very portable fitting easily in my pocket. Itake it with me when ever I am away from home and plan to be away from my automobile.It makes a great gift.

★★★★☆ **It Works But I Think It Could Be Better** April 3, 2013

By [IvanAiAi Tomo](#)

**Amazon Verified Purchase**

With so many different options to choose from for external power-packs I finally just clicked on the one I thought looked the best. The Enerpak Vault is a powerful external battery which has done a good job of being able to charge all my electronics, including my iPad and Samsung Galaxy.

The dual-port USB charging is a really great idea which helps me charge more efficiently. I would be no where without my electronics and this vault has already been a life saver in a couple of power-crunch situations.

I have noticed that the Vault seems to be a bit heavier than the old power pack that I owned and the size is a little bigger as well.

The only other problem with this power-pack is that I wish it came with a universal cable with more extra ports so that I could charge other electronics. My wife has an old Samsung adapter for her phone and she can't use this product.

I would like to give this product at least 4 stars but I feel like the product arrived with too few accessories to make this product a solid "I will buy it again" product.

9/27/13 Amazon.com: uNu Enerbook Duo Portable Universal Power- 7000mAh External Battery Pack and Charger for the new iPad 3 2 1, iPhone 4S 4 3Gs 3G (AT&T...

With its high capacity 7000 mAh battery and dual port 1A design, it can charge up two of your portable devices quickly and reliably.

PSP NDSI 3DS Adapters are included which will provide great help when you have kids sitting on the back seats playing game consoles on a long trip.

It also has a built-in 4 LED power meter that provides information on the remaining battery capacity accurately.

An emulation of the Apple iPhone 4/4S design makes this power bank ultra portable and so admirable, so that you would want to carry it all the time along with your high-tech portable devices.

The soft black pouch with separated compartments, cable and adapter tips in your bag without worrying about any possible scratches and hazards.

A 2.1A Car charger and a wall charger are included for your ease and all of your other portable devices. There is no need to carry multiple charger for all your portable devices.

#### Feature Highlight

Simultaneous Dual Port USB port charging.  
Extended capacity 7000mAh with slimmest form factor.  
Multiple tips included for mobile devices charging.  
Compartmental Pouch included for easy carrying  
Wall Charger and 2.1A car charger included without additional charge

#### Package Contents

USB Retractable adapter cable  
Mini USB adapter Tip  
Micro USB adapter Tip  
Samsung Galaxy Tab Adapter Tip  
PSP Adapter Tip  
NDSI 3DS Adapter Tips  
Enerbook 7000mAh Battery Pack  
Compartmental Carrying Pouch  
Energy Efficient Wall charger

1 of 1 people found the following review helpful

★★★★★ **Love it!** October 26, 2012By [sports guy](#)[Amazon Verified Purchase](#)

Love this thing! It's got so much battery I could go multiple days charging my iPhone and not have to charge this back up. The jack to charge it though is somewhat fragile as it can't take too much movement or else I fear I would snap, but otherwise it's still the best thing I've ever seen or used to keep me going all day without losing my phone to battery drainage.

[Comment](#) | Was this review helpful to you?

★★★★★ **Simply amazing!!** July 16, 2012By [Danzel Armstrong](#)[Amazon Verified Purchase](#)

All I can say this battery is just great. This uNu Enerbook Duo Portable Universal Power Juice Pack is great, and hey, I am the first one to post a review on this great product on amazon! This uNu Enerbook Duo Portable Universal Power Juice Pack is similar in size compare to other in the market, it has a very large battery capacity. The button placement and the finishing is much better. I like that the DC out port was removed cuz I don't have to worry about accidentally plugging the wall charger in the DC out port. But it would have been nice to have two USB ports instead of one, to charge two devices simultaneously. Overall I am very happy with the battery pack, and great support from uNu Electronics.

### Double Battery Life

Ex-Era can double the usage time for your iPhone 4 and 4S and helps users fully utilize their iPhone to complete daily tasks, such as Talk, web, text, video, music and gaming, without worrying about always having to recharge.

### Made for iPhone

Featuring Apple's coveted "Made for iPhone" certification, this powerful smart battery case has passed various lab test to ensure safety and reliability

### Detachable Design

10/11/13

uNu Exera Modular Battery Case For iPhone 4 &amp; 4S | uNu

The EX-Era case is designed to its minimum form factor, plus a 2 piece slide-on detachable design, Ex-Era will only add the bulk when you need extra juice

### Swappable Battery

The Ex-Era features a swappable battery module. It enables endless power supply for your iPhone with additional batteries (purchased separately).

### Fully Protected

The durable and stylish case offers the full protection of a hard-shell case and will protect your iPhone from bumps and scratches, so your phone will look and function like new.

### Fully Functional

Don't give up any iPhone features or functionality. With the Exera, you'll be able to easily access all of your controls, as well as speaker and microphone.

### Slim Back Cover

Swap on the slim back cover, the exera will convert the iPhone back to the size and weight you first fall in love with.

uNu Flexi Portable Battery Pack for Smartphones and Tablets - Enerpak Portable Batteries - Collections | uNu

**Easy Cable Storage Design:**

Do you enjoy having an extra battery around but hate having to find a cable to charge it? The Flexi has a special "flexible" cable built into the design. Simply pull the cable out and begin to charge! When done, simply replace the cable back and the Flexi will return to its original form.

**Colorful Options**

If color coordinating is high on your list, the Flexi is the perfect portable battery for you. The Flexi comes in several colors to accent your charging experience with a little bit of style.

**Built to Last**

We use only the finest designs, materials, and people when creating our batteries to ensure 100% reliability from anything we produce. That's why we gladly offer a 1 year warranty on our uNu Flexi Portable Battery to ensure our products stand up to the tests our customer put them to.

uNu Flexi Portable Battery Pack for Smartphones and Tablets - Enerpak Portable Batteries - Collections | uNu

1. How many times can this device charge my iPhone?

A: Because each generation of iPhone has a different battery capacity charging results from the Flexi can vary. However, iPhone 5 users should expect 2 full charges.

2. Can I use this device to charge other, various devices?

A: Yes, the Flexi is uNuversal, meaning you can use the Flexi to charge any devices that use a micro-USB port to charge!

3. I left my Flexi in the car for a few hours, and when I returned the Flexi was very hot, does this adversely affect the battery inside?

A: We recommended that the Flexi is always kept in a cool location for a couple of reasons. One, heat will degrade the battery. Two, such a hot case could hurt you.

4. How many charging cycles does the Flexi have?

A: The uNu Flexi generally yields 500 charging cycles in its lifetime.

5. Can I use my own charging cables?

A: Yes, you can use your own charging cables, this way you can charge additional products like the iPhone 5. Please make sure the cables you use are in good condition.

6. Is the warranty for this product similar to the warranty on the phone cases?

A: All products sold by uNu Electronics are covered by a one-year manufacturer warranty. For more information on our warranty please click [here](#).

7. What is special about this particular Flexi?

A: The Flexi has a built in micro-USB cable which eliminates the need to bring a spare charging cable. The Flexi is also design to be ultra-portable making it a perfect accessory for on-the-go use.

8. What can I do to get the most out of my battery?

A: Some helpful tips include: Fully charging the Flexi by itself overnight before using the product for the first time and keeping the Flexi out of extreme temperatures to minimize battery degradation. If you would like to learn more about how to get the most out of your Flexi click [here](#).

9. How do I charge my Flexi?

A: Use the included micro-USB cable and attach the micro-USB (the smaller end) end into the Flexi where it says "IN". Plug the other end of the cable into an available USB port either on a computer or USB wall charger. If done properly an LED display will appear next to the power button on the front of the Flexi and will begin flashing. If there is only one light flashing, the Flexi is empty, if there are three lights the Flexi is full.

10. How do I know if my Flexi has power?

A: PRESS the power button on the front of the Flexi once. A LED display will appear. The number of lights shown indicates

10/11/13

uNu Flexi Portable Battery Pack for Smartphones and Tablets - Enerpak Portable Batteries - Collections | uNu

the amount of charge left in the battery. 3 lights = 100% - 66%, 2 lights = about 65% - 33%, 1 solid light = about 32% - 2%, and 1 light flashing = about 1%.

11. How do I turn my Flexi ON and OFF?

A: Simply, press the power button on the front of the Flexi to turn it ON. The Flexi will automatically turn OFF after 25 seconds of non-use.

13. I need more help with my Flexi!

A: If you do not see the answer you are looking for here. We also have a general FAQ section which might help answer your question, or you can go to our technical support page to ask a specific question.

stand-by time.

**Colorful Options:**

Nothing personalizes a phone better than customization. With an assortment of exchangeable color bumpers to choose from, your iPhone is simply a snap away from a vibrant new look. Plus, if you want to change your color, simply snap and replace with a new color bumper, it's that easy!

**Charge and Sync through the Case:**

Like all uNu products, the DX-Lite has the ability to allow the iPhone to charge and sync to your computer without having to be removed. Never struggle with removing the case just to sync your phone again!

**Product Specifications**

## UNU ENERPAK TUBE Universal Battery Pack

### Rechargeable external battery pack for iPods, iPhones & iPads

With the Enerpak Tube portability and power collide. Able to re-charge almost any smartphone up to 3x while still managing to remain light-weight and completely portable, the Enerpak Tube is the most dynamic battery yet. The 1A USB port allows for almost any USB device to be re-charged at almost double the speed when compared to traditional USB batteries. Also, the light-weight design makes the Enerpak Tube easy to carry and extremely useful in-a-pinch.
